

Optimise HR Management & Efficiency with AQRO

3 Day Course

As the pace of communication gets faster organizations, teams and individuals struggle to keep up with priorities. AQRO® HRM Stress-Free Efficiency reduces unplanned interruptions – the main cause of working inefficiently. By intelligently structuring a department's activities, organizations can foster stress-free and efficient human resource management. AQRO equips your organization with a key competitive advantage - providing managers, team leaders and staff with substantial benefits during their daily business activities.

Implementation of AQRO delivers the following advantages

- For the company and senior management: **EFFICIENCY** (saving up to 1.5 hours per day, per worker)
- For managers and team leaders: **FACTS** (transparency; know the workers' workload; make clear plans)
- For the worker: **WORK WITHOUT DISTRACTIONS** (clear responsibilities, reduce stress, less overtime)

AQRO provides managers with a disciplined but flexible approach to resource management, allowing for greater visibility and control of resources. This in turn leads to increased productivity and cost savings. AQRO provides the HR integration with process based methodologies, such as COBIT®, AgilePM®, PRINCE2®, ITIL® and LEAN IT®.
